1. Introduction

Skill India Digital is envisioned to provide skilling, upskilling, and multi-skilling opportunities and ensure access to lifelong learning to citizens through classroom, online and blended learning. It aims to bring together academic; industry demands and linkages; improve employment prospects and enable the start-up ecosystem. The integrates the existing government databases in education, skilling, entrepreneurship and jobs and acts as a one-stop solution for the learners pursuing education and skilling.

Skill India Digital is developed by National Skill Development Corporation (NSDC). NSDC was set up by the Ministry of Finance as a Public Private Partnership (PPP) model. The Government of India, through the Ministry of Skill Development & Entrepreneurship (MSDE), holds 49% of the share capital of NSDC, while the private sector has a balance 51% of the share capital.

NSDC aims to promote skill development by catalyzing the creation of large, quality, and for-profit vocational institutions. Further, the organization provides funding to build scalable and profitable vocational training initiatives. Its mandate is also to enable a support system which focuses on quality assurance, information systems and training the trainer academies either directly or through partnerships. NSDC acts as a catalyst in skill development by providing funding to enterprises, companies and organizations that provide skill training.

2. Formatting Standards

This document attempts to provide step-by-step instructions for every key action in SID. Each instruction is accompanied by a brief text write-up and a screenshot. For greater clarity, all text instructions and screenshots follow standardized formatting. These standards are briefly described in this section.

1. Formatting for Text Instructions

[Messages in Blue and Underlined](#): These are hyperlinks. Press the Ctrl button and click on these messages to go to the referred section of the document

2. Formatting for Screenshots

The page screenshots use standard visual markers to indicate actions:

3. **Arrow**- Indicates the area where the user needs to look into

4. **Square**- Indicates the area where the user needs to click
