Assessment Strategy

Assessment system Overview

Assessment will be carried out by the Sector Skill Council in association with empanelled Assessment Agencies independent from training partners Based on the assessment criteria B&WSSC defines the test structure for the given job roles to cover the required skills and competencies The assessment strategy consists of the following

1. Multiple Choice Questions: To assess basic knowledge (Objective/Subjective)
2. Viva : To assess awareness of processes involved (Oral and/or written questioning)
3. Practical : To evaluate skills and identify competencies(Observation)

The assessment will have both theory and practical components in **60:40 ratios** While theory assessment is summative and a written exam; practical will involve demonstrations of applications and presentations of procedures and other components Practical assessment will also be summative in nature

Assessment will be carried out by certified assessors through empanelled assessment partners Based on the results of the assessment; B&WSSC will certify the learners/candidates

1. Testing Environment

Assessments are conducted either on laptops/Mobiles/Android tablets via both offline and online modes depending on the internet connectivity at the assessment location

In remote locations/villages, assessments are delivered through tablets without the requirement of the Internet

- Rubric driven assessments in Practical/Viva sections and responses recorded accordingly
- Advanced auto-proctoring features like photographs, time-stamp, geographic-tagging, toggle-screen/copy-paste disabled are captured
- End to end process from allocation of a batch to final result upload, is done on the portal
- Assessment will normally be fixed for a day after the end date of training / as per the program guidelines
- Assessment will be conducted at the training venue
- The room where the assessment is conducted will be set with proper seating arrangements with enough space to curb copying or other unethical activities
- The question bank of theory and practical will be approved by B&WSSC Assessment agency will set the question paper from the approved question bank
- Theory testing will include multiple choice questions, pictorial questions, etc which will test the trainee on their theoretical knowledge of the subject
- The theory and practical assessments will be carried out on the same day The question paper is pre-loaded in the computer (in case of online assessment) and it will be in the language requested by the training partner Viva will also be used to gauge trainee's confidence and correct knowledge in handling job situations

Assessment Quality Assurance framework

The assessor has to mandatorily undergo the TOA program organised by B&WSSC. The training would give an overview to the assessors on the overall framework of QP evaluation. The assessor shall be given a NOS and PC-level overview of each QP as applicable.

The assessor has to go through an orientation program organized by the Assessment Agency. The overall structure of the assessment and objectivity of the marking scheme will be explained to them.

The giving of marks will be driven by an objective framework that will maintain standardization of the marking scheme.

In the case of many candidates to be accommodated in one venue for theory assessment, caution is taken not to let the candidates who completed the test meet those who have not. Once the first batch has moved out of the knowledge-based assessment area, the second batch must be taken from the main waiting area and seated in the respective seats for their knowledge-based assessment.

For practical, the instructions for taking the test are written on the board in the lab or shared with the candidates verbally.

The assessment will be video-recorded and submitted to B&WSSC. It is the responsibility of the assessor to fill the beginning of the day report on the link shared by the agency or through the portal & after the completion of the assessment, it is the responsibility of the Training Partner to fill out the feedback form.

Methods of Validation

Unless the trainee is registered, the person cannot undergo assessment. To further ensure that the person registered is the person appearing for assessment, ID verification will be carried out. Aadhar card number is part of registering the candidate for training. This will form the basis of further verification during the assessment.

The assessor conducts the assessment in accordance with the assessment guidelines and question bank as per the job role.

The assessor carries tablet with the loaded questions. This tablet is geotagged so it is monitored to check their arrival and completion of assessment.

Video of the practical session is prepared and submitted to B&WSSC.
